FLORIBUNDA ROSES

The FLORIBUNDA group of roses represent hardy varieties recommended for mass color effect and for use among shrubs, for continuous color, as hedges, borders, as massed bed plantings.

They are of medium height, very winter hardy, disease resistant, bloom continuously in large clusters and do not fade in hot summer suns.

BETTY PRIOR—Pat. No. 340. Large clusters of flowers of lively red turning to delicate pink. Rugged grower, abundantly branched. Price .85

DONALD PRIOR—Pat. No. 377. Huge clusters of three-inch flowers, wine red, dark green foliage, never out of bloom. Price .85.

WORLD'S FAIR—Pat. No. 362. A sensational new velvety rich scarlet, fragrant, double. Very hardy. Price \$1.00

PINOCCHIO—Pat. No. 484. An outstanding newcomer in the Floribunda group. Large clusters of lovely salmon-pink flowers are produced in great profusion throughout the season. When fully open, each flower is a gem in itself. The foliage is dark green and ample on the bush. Excellent for cutting and use in the house. This promises to be one of the most satisfactory of the Floribundas. Attractive fragrance. Height about 2 feet. Price \$1.25.

COOK'S POTTED ROSES

After April 30th all roses are offered for sale in pots.

The patented pot in which these roses are growing is the greatest innovation ever offered rose lovers. The pot is so inexpensive that we are able to give it with the roses thereby eliminating chance of failure after replanting it in your garden.

Each plant is growing in fifteen pounds of especially prepared soil and is in bud and bloom so that you may see just what colorings each plant has. There is no danger of improper planting, simply dig a hole slightly larger than the pot, slip off the pot and place the earth ball in the hole and fill in. The plants are then in leaf and bloom and growing in your garden the same day you buy them.

Prices for roses planted and growing in patented pots, other than specialties.

\$1.15 each, one free rose with each ten, three free roses given with each twenty-five.

We offer only the best grade roses, 2 yr. No. 1 field grown. The following prices are for dormant plants which are for sale until April 30th after which all roses are offered in pots.

One free plant with each ten. Three free roses with each twenty-five. All dormant roses are protected with a coating of Dowax to prevent drying.

Abbreviations Pat.—Plant Patent.

A.A.R.S.—All American Rose Selections.

REDS

AMI QUINARD—Vary dark crimson bud, opens semi-double, satiny maroon red. Price .90

CHRISTOPHER STONE—Semi-double vivid scarlet blooms with a satiny finish. This is a fine rose in all respects. Price \$1.00

DR. VAN FLEET—A well known favorite for cutting. Flowers are delicate flesh pink borne on long stems, the plant is a strong grower, the blooms cover the foliage during June. Price 75c each.

DOUBLOONS CLIMBER—(Pat. No. 152)—A strong growing sort producing huge semi-double flowers of saffron yellow, abundant bloomer. Price \$1.00.

FLASH CLIMBER—(Pat. No. 396)—A startling new climber winner of A.A.R.S., Orange-scarlet with reverse of petals yellow. Price \$1.00

PAUL'S SCARLET CLIMBER—Huge scarlet blooms borne in clusters on long stems. Best in its color class. Price .75

ROSA HUGONIS—Golden Rose of China.

A splendid early rose for the border. Single yellow blooms by the hundreds are borne on a 6 to 8 foot bush of arching habit. Extremely hardy and attractive, fine foliage all summer. 2 to 3 foot plants, 75c; 3 to 4 foot plants \$1.00.

DIRCONURE—A fine fertilizer and soil conditioner with a peat moss base. 50 lbs. (2 bushels) for \$2.00; 7½ lb. bag 65c. Special potting soil per bushel 50c.

Labor and time previously devoted to landscape work will with few exceptions be diverted to food production. We feel that

we can best serve the nation's interests in this way. We will be glad to advise you regarding choice of plant materials and the placing and planting of any stock purchased.

By grouping our orders we can arrange delivery of plants to Dunkirk, Fredonia, Jamestown and intermediate points.
